- 6.3. We are entitled to the statutory claims for defects in full. In any case, we are entitled to demand that the supplier remedies the defect or delivers a new item, at our discretion. We expressly reserve the right to claim damages.
- 6.4. The supplier warrants that the goods delivered by him and the services rendered by him correspond to the specifications and the intended use, the current state of the art and the relevant German and European statutory provisions and other regulations. If deviations from these regulations are necessary in individual cases, the supplier must obtain our written consent before executing the deviation. The supplier's warranty obligations are not affected by our consent.
- 6.5. Insofar as the supplier is merely an intermediary for the goods, it undertakes to inspect the goods for compliance with the specifications, the contractual agreements and the provisions of German and European law prior to delivery to us.
- 6.6. We are entitled to remedy the defects ourselves at the supplier's expense if the supplier is in default.

- 7.3. Insofar as the goods are mixed, combined and/or processed by us with other items, the supplier warrants the usability and marketability both with regard to the manufacturing process and the end product. The supplier is obliged to inform us without being asked of any concerns regarding a corresponding use of the goods, in particular to indicate any special features which we have to take into account with regard to the use of the goods in production.
- 7.4. Any change in quantities and/or composition of the goods in the lists of ingredients (recipe changes) as well as packaging changes in deviation from the product specification agreed by us with the supplier

must be notified to us in writing at least six months before the planned implementation. Corresponding changes always require our express written consent, unless required by mandatory statutory provisions.

- 7.8. In addition to Section 7.7, the supplier is obliged, in the case of foodstuffs, food packaging and food contact materials, to provide us upon request with evidence of the entire supply chain of the goods delivered by him and their ingredients or related materials by name up to their origin. Upon request, the certificates for these upstream suppliers shall be presented to us. - 7.9. If necessary (administrative complaint, customer complaint, etc.), the supplier is obliged to provide us immediately upon request with the necessary information regarding certain goods in demand. The assertion of further claims against the supplier remains unaffected by this.
- 7.10. In the case of goods whose labelling shows or must show expiry dates (best before date, date of use, etc.), the remaining term, i.e. the time available to us for processing and/or marketing the goods, must amount to at least 80% of the total term (span between production and date stated), calculated from the day following receipt of the goods by us. Deliveries of goods which do not meet this requirement shall be deemed to be defective.
- 7.11. Insofar as the object of the supplier's delivery is packaging material which we use and deploy, the above provisions shall apply accordingly, i.e. the supplier warrants the unrestricted marketability and usability of the packaging material. In particular, the supplier shall warrant that this packaging material does not have any adverse effects on the packaged product.
- 7.12. If a warning is issued publicly, in particular in the media, against buying and using products of a comparable type or with comparable ingredients because of actual or alleged health hazards, we are entitled to cancel orders that have not been delivered and to return goods that have already been delivered against reimbursement of the purchase price, in particular if demand for the goods is expected to cease as a result of the warning. 8. Product liability - indemnification - liability insurance protection

- 8.1. Insofar as the supplier is responsible for a product damage, he is obliged to indemnify us from claims for damages by third parties on first request, insofar as the cause lies within his area of control and organisation and he is liable himself in the external relationship.
- 8.2. Within the scope of his liability for damages within the meaning of Section 8.1, the supplier is also obliged to reimburse any expenses pursuant to §§ 683, 670 BGB (German Civil Code) or pursuant to §§ 830, 840, 426 BGB (German Civil Code) that arise from or in connection with a recall action carried out by us. We will inform the supplier - as far as possible and reasonable - about the content and scope of the recall measures to be carried out and give him the opportunity to comment. Other statutory claims shall remain unaffected.
- 8.3. The supplier undertakes to maintain a product liability insurance with a coverage of at least € 1 million; if we are entitled to further claims for damages, these shall remain unaffected.

9. Third party rights

- 11.3. The Information is to be used exclusively for production based on our order; after termination of the business relationship, it is to be returned to us without request.
