# About us

Aplantis GmbH is a full service provider for contract-manufacturers, wholesalers and producers.

We offer a broad traded portfolio of plant-based and biotechnologically produced raw materials for the nutritional supplement, functional food, sports nutrition, pet and animal feed industries.

We are a professional, efficient team with detailed product and market knowledge, with many years of experience in the field of raw materials. We share our application and legal knowledge with our customers. We know the trends, we want to promote innovations.

## Benefit from

- 🌱 Premium quality from cultivation to the final product.
- 🌱 Efficient quality control, internal warehouse & labs.
- 🌱 Expertise in global purchasing.
- 🌱 Flexible and individual solutions, we take care of you.

A photograph of a modern building with a courtyard. The sun is shining brightly from the top right, creating a large lens flare that dominates the upper right portion of the image. The building has a mix of light-colored walls and dark-framed windows. A paved area with a brick pattern is visible in the foreground.

**We are Aplantis.**  
**Nature supplied in perfection.**

## Warehouse

Our temperature-controlled warehouse with modern high-system racks is located in the immediate vicinity of our office building. With a wide selection of diverse raw materials that are always in stock, we can ensure prompt availability.

## Integrated Lab

Aplantis has two integrated laboratory/clean rooms. In contrast to many other raw material traders, by integrating the warehouse and laboratory, we can carry out incoming goods inspection and a representative sample train by trained employees directly on site. This is the only way we can sustainably guarantee our quality standards.

# Plants & Organics

## Plant Extracts

Aplantis is a premium specialist in the complex fields of plant extracts and offers a broad portfolio of ratio and standardized active ingredients extracts, many of them are also available in organic quality. We source our extracts from top producers worldwide and we know how to control the complex quality requirements of extracts.

## Vital Mushrooms

We offer a wide range of medicinal mushrooms in the form of powder and extracts, available in both organic and conventional quality. We know how to control the quality of mushrooms by testing ID, assay and potential contaminants.

## Plant Powders

Turmeric powder from India, Maca from Peru, Matcha from China, Artichoke from France, trust us, we know where the plants grow and which supplier we can trust.

## Marine

Raw materials from water - macroalgae or microalgae? At Aplantis you get both. The range includes macroalgae such as bladderwrack or sea lettuce as well as microalgae such as spirulina and chlorella, often in organic quality.

### Fruit Powders

Acerola from Brazil, Camu Camu from Peru, Amla from India, Rose hips from Chile, Raspberries from Poland, preferably organic. Are you looking for freeze-dried or water-soluble fruit powder? Ask us, we will advise you.

### Bestseller for your success

# Biotech

## Specialities

Hyaluronic acid, Q10, Alpha lipoic acid, Phosphatidylserine, Glucosamine, Chondroitin sulphate, NADH, Melatonin and many more. Ask us, we are familiar with biotechnologically produced raw materials.

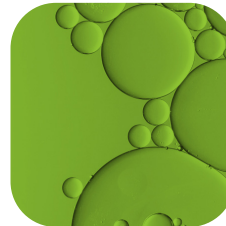

## Vitamins

Our vitamin portfolio includes both water- and fat-soluble vitamins and offers high quality, short delivery times and flexibility in pack sizes.

## Enzymes

We cannot live without enzymes. The complex protein molecules are involved in almost all metabolic processes. The so-called biocatalysts accelerate biochemical reactions. Enzymes occur naturally in many fruits - such as papain in papaya or bromelain in pineapple.

## Amino Acids

Amino acids are used in a variety of ways. Aplantis offers an extensive portfolio of amino acids of the highest quality.

## **Discover our Aplantis Marketplace**

Discover high-quality raw materials in the B2B Aplantis Marketplace. Here you will find a variety of high-quality raw materials.

If you are looking for special raw materials or new qualities, you can also easily inquire about these.

We will search for the desired raw material for you and get back to you immediately.

# Our Industries

## Benefit from our application and legal know-how

Aplantis GmbH offers a variety of natural raw materials for the dietary supplement, food, beverage, cosmetics, pet and animal feed industries. We share our application and legal expertise with our customers and ensure innovation.

## Aplantis

One company - a wide variety of application areas

## Nutritional Supplements

We offer an extensive portfolio of products across various categories including Plant Extracts, Plant Powders, Medicinal Mushrooms, Vitamins, Enzymes, Amino Acids, Specialties, Probiotics and Plant Proteins. Also in organic quality.

## Pet Food

Our natural ingredients, also available as GMP+ secured, help to produce nutritious and balanced pet food that meets the health needs of animals. Our raw materials can be used in dry food, wet food and snacks.

## Feed

The feed industry focuses on the production of feed for livestock raised primarily for agricultural purposes, such as meat or dairy production. Here our raw materials available as GMP+ secured are used for the production of feed materials.

## Beverages

Many companies are looking for natural alternatives to artificial flavors and additives. Our plant-based raw materials make it possible to produce refreshing drinks that not only taste good, but are also health-promoting.

## Food

Our plant-based raw materials are used to produce healthy foods that provide consumers with a natural and balanced diet. Whether it's baked goods, snacks, cereals or other foods, our raw materials help create delicious and nutritious products.

## Personal Care

Our plant-based raw materials are used in skin care products, shampoos, soaps and many other applications.

# Our Quality

## Quality and safety through consistent control.

Our raw materials are sensitive natural products. The Aplantis quality seal stands for safety through consistent control of our producers and traded products. We not only have a high level of responsibility towards our customers, but also towards the end consumers. At Aplantis we understand that quality comes first. Benefit from professional advice from food experts, speed and fair prices.

What makes Aplantis quality so special?

## Aplantis Quality Seal

### Quality and Security through intense control

Our raw materials are sensitive natural products. The Aplantis quality seal stands for high quality and safety through control of our producers and commercial products. We not only have a high level of responsibility towards our customers, but also towards the end consumers.

### Supplier Qualification

We only work with professionals who we know personally and who are qualified and who meet our and EU quality requirements. Through intensive review processes and audits, we ensure that we only work with suppliers who meet our strict requirements.

### Warehouse, Laboratory & In-House Sampling

In contrast to many other raw materials traders, by integrating warehouse and laboratory, we can carry out a representative legally required sampling in a clean room environment and examine our trading raw materials for critical parameters/contaminants as well as for authenticity (assay, ID) and food fraud.

### Consulting

Through in-depth specialist knowledge and practical experience, we support you in optimizing your product development and production. We advise you on the optimal selection of raw materials and offer individual solutions that are tailored to your specific requirements and goals. Our quality management experts are carefully trained and have in-depth knowledge of both the scientific aspects of raw material quality and the legal framework.

### Our Certifications

Our quality promises are more than just words – we back them up with concrete measures and certifications. We have HACCP, ISO9001, GMP+ and Organic certificates. These certifications demonstrate our commitment to the highest quality standards, food safety and environmental sustainability.

# Our Service

Aplantis is not just about products but about a partnership.

**Because we want satisfied customers - just like you.**

At Aplantis we offer an all-round, worry-free service that goes far beyond just selling products. We want to offer solutions tailored to your needs.

In our opinion, this goal can only be achieved with a comprehensive approach, starting from the quality of raw materials, efficiency and authenticity of raw materials, professional logistics and goods flows, detailed product and market knowledge, responsive and attentive customer service and sales staff, highly professional quality management for quality assurance and compliance with regulatory aspects.

**Individual, fast,  
problemsolving,  
advisory, fair prices.**

### Comprehensive Advise

Our dedicated team is at your side not only as a supplier, but also as a consultant.

### Speed

We attach great importance to efficient and quick processing. You can rely on your request to be processed as quickly as possible.

### Fair Pricing

Our goal is to offer our customers high-quality and controlled raw materials at fair and competitive prices.

### Know How Transfer

We share our application and legal know-how with our customers, know market trends and promote innovation.

### Import

We take care of all import regulations such as Health Certificate, Certificate of Origin (COI), organic and animal origin import requirements and compliance with the CITES list.

### Quality

We stand for high-quality ingredients.
